Abstract of JP2002334739

PROBLEM TO BE SOLVED: To provide a connector housing capable of responding to a request to miniaturize it.

SOLUTION: This connector housing H is structured by mounting a terminal storing part 20 wherein a cavity 21 is formed to a body part 10 wherein a lance 15 is formed. A female side terminal fitting 30 is stored in the cavity 21, and is locked by the lance 15. A partition wall 27 is provided between the upper and lower cavities 21 in the terminal storing part 20.
